VERSIONS

	Code	Finishing
	ECLDISPPRHDL36B	Black
	**ECLDISPPRHDL36W**	**White**

Weight

0,75kg / 1.65lbs

The Ecl Display series' High Definition Optics are designed to elevate projection quality, offering precise focus, stark contrast, and distortion-free imaging for Gobo projections and framing using onboard blades.

This HDL optics range features fixed-angle lenses, available in three variants: 18° for narrow, 36° for medium, and 50° for wide projections.

These lenses are engineered to deliver exceptional performance, broadening the application scope of the acclaimed Ecl Display series. They are particularly effective in specialized lighting applications like signage and advertising, where clarity and precision are paramount.

MAIN FEATURES

- Manual focus
