Os400plus NEW

PROLIGHTS

ORDER CODE: OS400PLUS

The **OS400PLUS** is a quick-lock omega bracket system featuring an elongated slot with an M12 mounting point, specifically developed as a dedicated accessory for the Astra Blade100IP.

Engineered to ensure maximum efficiency during truss mounting operations, the **OS400PLUS** provides fast, secure, and highly versatile fixture attachment. Crucially, the elongated slot allows for precise horizontal adjustments of both the fixture and the clamp. This expands configuration possibilities, ensuring perfect alignment and adapting seamlessly to the diverse requirements of professional rigging.

The integrated M12 hole offers superior structural strength, enabling its use even in demanding applications where mechanical resistance is a top priority. These features make the **OS400PLUS** the ideal solution for touring, fixed installations, and rental applications—environments where reliability and setup speed are essential.

Thanks to the Quick-Lock system, mounting and dismounting the Astra Blade100IP is exceptionally fast and intuitive, optimizing workflow and significantly reducing installation times.
